

GC/Waldom

Silicone Compound

10-8101	1 fl. oz. tube
10-8102	1 gallon can
10-568	1/3 fl. oz. Chem-o-Jecton

10-8101

Soft, inert silicone grease with excellent dielectric properties. Usable over a wide range of temperatures. Its consistency is vaseline-like and it is a white opaque color. It provides an excellent dielectric coating, which excludes moisture and prevents high voltage arcing. Applicable to components in the high voltage section of TV receivers. Protects ignition systems in automobiles and boats, in addition to providing an outstanding corrosion resistant coating on exposed metal surfaces, such as TV antenna terminals, as well as general rustproofing. This compound also makes an excellent lubricant for rubber or plastic.

Belt & Drive Non-Slip

10-8602	2 fl. oz. bottle with brush
---------	-----------------------------

Prevents slippage in mechanical or electromechanical devices which are driven with cords, belts, pulleys and drives. Restores proper functions on belts and drive pulleys in turntables, record changers and tape recorders, especially where the rubber parts have hardened and/or become slick and cause slippage.

Static Null

19-1004	8 oz. aerosol
---------	---------------

Neutralizes and prevents static electricity in a wide variety of applications. May be used on circuit boards, carpeting, clothing, cabinetry or generators of static electricity. One application lasts for weeks. An excellent maintenance area product for use on test equipment, circuits being serviced and work surfaces.

Static Control

Zero Charge® Mat & Table Top Cleaner

1733-QT	1 quart with trigger in plastic
1733-2FP	2 oz. finger pump
1733-PT	1 pint with trigger in plastic
1733-G	1 gallon in plastic
1733-5G	5 gallon in plastic

A neutral pH cleaner for general use in production areas that removes insulating contaminants such as flux residues, oils, greases, nicotine, dirt and grime. The Mat & Table Top Cleaner eliminates dirt charge while leaving an anti-static agent that helps prevent static charge build-up. Applications: conductive mats, table tops, cleanrooms, computer stations, soldering stations, office equipment, telecommunications, conductive floor mats, electronic instrumentation.

Envi-Ro-Tech™ Anti-Static Freezer

1747-10S	10 oz. aerosol
----------	----------------

A rapidly evaporating HFC-134a product that contains an anti-static agent. Because HFCs do not harm the ozone, this product has a zero ozone depletion factor. This product is used as a troubleshooting aid in static sensitive areas for intermittently faulting capacitors, resistors, semi-conductors and other defective components. Applications: locates faulty components, prevents cold solder joints, protects heat sensitive components.
